About Our Dried Fruits

We make our dried fruits from Armenian fruits grown in sunny fields. Each fruit is dried naturally, without added sugar, oil, or colorants, to preserve its natural flavor, color, and vitamins.

We primarily value quality and naturalness, turning fresh Armenian fruits into healthy, delicious foods full of natural sweetness.

Each of our dried fruits reflects the richness of Armenian nature and our caring approach to creating natural products.

- Natural
- Sugar-free
- Preservative-free
- Made from Armenian fruits

About Sone

The **Sone** brand was founded in 2020 with the goal of introducing the authentic, sun-kissed flavors of Armenian fruits to the world. From day one, our main aim has been to create healthy and high-quality products using only natural ingredients, without excess sugar or artificial additives.

We blend traditional drying methods with modern quality standards to produce dried fruits that are pure, incredibly delicious, and suitable for both everyday use and as healthy sweet treats. These dried fruits are perfect for gifting to foreign partners—boxes filled with sun-flavored Armenian tastes that will remind them of Armenia's warmth.

With love and dedication, Sone continues to grow, becoming a symbol of Armenian quality, natural flavor, and healthy living.
